

KEYSIGN On-Demand Training

Master Traffic Sign Design with Expert Training

KeySIGN is the comprehensive solution for designing compliant and effective traffic signage. Our on-demand training program equips traffic professionals with the knowledge and skills to create accurate, standardised signs that meet regulatory requirements while optimising workflow efficiency.

On-demand training overview

Our KeySIGN training delivers practical techniques for both beginners and experienced users, providing a structured approach to mastering traffic sign design.

Format	Online course platform
Schedule	At your own pace
Duration	3.5 hours of video content
Cost	£150 GBP yearly subscription per user

Delivery	Self-paced and independent
Engagement	Pre-recorded training videos
Skill level	Beginner to advanced
Recording	Pre-recorded videos

Key Benefits

- Certificate of completion offered.
- Access to comprehensive content built by instructors with deep product knowledge
- Cost-effective for individual skill development

Why should I go with on-demand training

Flexible Learning	Learn at your own pace, making it easy to integrate professional development into your busy life.
Applied Skill Building	Get hands-on with simulations and swept path analysis tools that you can immediately apply to your daily work and projects.
Credibility	Boost your professional credentials and receive a certificate of completion to validate your expertise in KeySIGN

KeySIGN on-demand training FAQ

Our self-paced KeySIGN training delivers a structured curriculum that allows traffic sign designers to learn essential techniques at their convenience. The course progresses from basic interface navigation to advanced multi-section sign creation, ensuring comprehensive coverage of all key functionality.

Who should attend? This course is ideal for Traffic Engineers, Traffic Managers, Sign Designers, Manufacturers, and CAD Technicians who either need to learn KeySIGN from scratch or want to expand their knowledge of advanced functionality for more efficient sign design workflows.

What's included?

- 12-month unlimited access to training materials starting from your enrollment date.
- 16 lessons consisting of in-depth pre-recorded videos on essential and advanced KeySIGN tools
- Certificate of completion to validate your KeySIGN expertise

Where is it held? On-demand training is held asynchronously on the Thinkific™ online course platform
