

TORUS

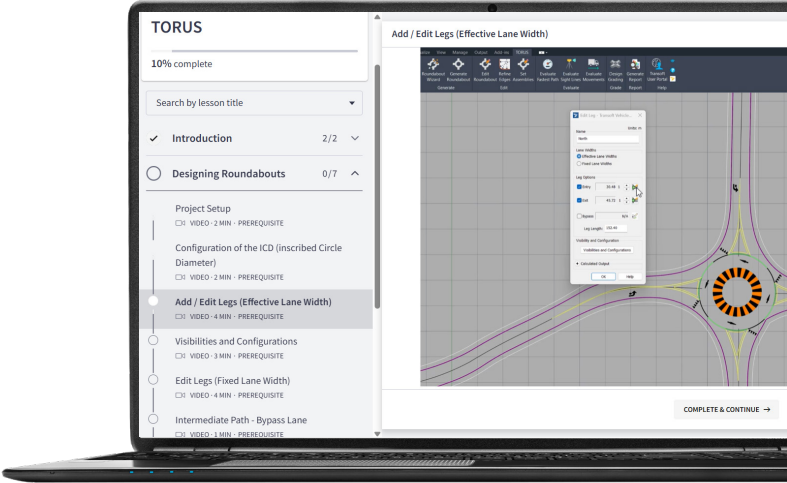

On-Demand Training

Master Roundabout Design and Analysis with Expert Training

TORUS Roundabouts is a comprehensive solution for roundabout design and analysis. Our on-demand training equips engineers, planners, and designers with the skills to fully leverage TORUS for efficient, safe, and compliant roundabout planning.

On-demand training overview

Whether you're just getting started with TORUS or aiming to become your team's go-to expert, we've got you covered. Our on-demand training covers basic to advanced features in TORUS, supporting users at every skill level.

Format	Online course platform
Schedule	At your own pace
Duration	1 hour of video content
Pricing Model	Yearly subscription per user

Delivery	Self-paced and independent
Engagement	Pre-recorded training videos and quizzes
Skill level	Beginner to advanced
Recording	Pre-recorded videos

Key Benefits

- Certificate of completion offered.
- Access to comprehensive content built by instructors with deep product knowledge.
- Comprehensive content built by product experts.
- No pre-requisites needed.

Why should I go with on-demand training

Flexible Learning	Learn at your own pace, making it easy to integrate professional development into your busy life.
Applied Skill Building	Get hands-on with roundabout design and analysis tools that you can immediately apply to your daily work and projects.
Credibility	Boost your professional credentials and receive a certificate of completion to validate your expertise in TORUS.

TORUS on-demand training FAQ

For organizations wanting a quick overview of TORUS, whether for new users or as a refresher, our on-demand training provides a standardized curriculum that fits your schedule. This online, self-paced course covers everything from basic to advanced features in TORUS.

Who should attend? Ideal for transportation engineers, roundabout designers, urban and traffic planners, CAD technicians, and technologists who are new to TORUS, as well as existing users seeking formal training or a refresher.

What's included?

- 12-month unlimited access to training materials starting from your enrollment date.
- 24 lessons consisting of in-depth pre-recorded videos and quizzes on essential and advanced TORUS tools.
- Certificate of completion to validate your TORUS knowledge.

Where is it held? On-demand training is held asynchronously on an online course platform.

What if I have questions during the on-demand training?

Instant chat is currently not supported. If you have any questions during the training, please send them to technical support at support@transoftsolutions.com

What topics are covered?
